

## STIT Series Precision Weighing Balance

### Commercial Digital Silver Weighing Scales:

This category of the weighing machine comes designed and industrialized as per industry standards and is accessible with large LCD display screen for convenient reading of the parameters. Further, it has RS232 interface and works on AC power supply of 220-240V 50HZ. Some of its features include unit measurement of g, oz, ct, lb. Come with automatic calibration, over-load protection and zero tracking option; electromagnetic balance sensor; provision for external calibration weight, and comes with counting function with advanced sensor technology supporting multi-point correction which is capable of providing stable performance.

### Features

- High-contrast LCD display for easy viewing in most environments
- Lightweight design simplifies transport and portability
- Weight Stable Indication
- Rugged Stainless-Steel construction stands up to industrial use
- External calibration allows for verification and adjustments with weights
- Sealed keypad protects against dirt and spills
- Colour-coded keys facilitate quick recognition
- Use high-precision and true division load cell
- Four feet adjustable
- Overload protection
- Beautifully compact, stable and reliable performance

### Precision Weighing Balance

#### General Specification

- Weighing units: g, ct, oz, dwt, gn. Tola
- Calibration: External calibration
- Housing: Stainless steel
- Low battery indication
- Auto backlight
- Auto off
- Tare & Zero Function
- Stable Indication
- USB port connects with computer & printer

#### Package

- 350x260x370mm

Uses:

### Technical Specification:

Capacity	Resolution	Platter Size	Platter & Housing	Gross Weigh
6kg	0.1g	180x160 mm	SS-202	3.250kg
15kg	0.1g	180x160 mm	SS-202	3.250kg
15kg	0.2g	180x160 mm	SS-202	3.250kg
30kg	0.5g	180x160 mm	SS-202	3.250kg
